Prepared for Island Boy Kreationz / Island Boy Creations

May 11, 2026

Custom Website Build

\$350 one-time

Built around the exact vision, style, content, and design direction the owner wants.

Personalized App Add-On

+\$150 one-time

Add a personalized app-style experience on top of the website build. Website + app setup is \$500 total.

Website + Creative Partnership

\$97 per month

Ongoing support to keep the website, app, brand, and social content active.

What the \$350 Website Includes

- Custom website design and layout
- Lead/contact form for customer inquiries
- Design direction based on the owner's feedback
- Mobile-friendly page design
- Business story, photos, menu/services, and calls to action
- Final launch-ready website setup

Personalized App Add-On

- Personalized app-style experience for the business or brand
 - Lead/contact or customer action flow where useful
 - Quality management and maintenance throughout our time working together
 - Built around the same design direction as the website
 - Simple structure for services, content, reviews, menu items, events, or offers
 - Included in the monthly support once the app is active
-

What the \$97 Monthly Partnership Includes

- Website hosting
- Google Business Profile management and optimization
- Ongoing website maintenance
- Updates whenever the business wants to change something
- Ongoing app quality checks, maintenance, and updates if the personalized app is included
- Website security and basic protection
- SEO and AEO improvement for better search and AI visibility
- Website text, photo, menu, offer, and layout changes
- Continued support so the site does not get outdated

Why This Helps the Business Get Leads

A website gives the business a real online home that is open 24/7. Social media is important, but the website gives customers one clear place to see the food, story, menu or services, contact form, booking options, reviews, photos, and next steps.

We have had clients make their website investment back in less than 24 hours by getting leads from the site and online presence. Results depend on the offer, market, traffic, and follow-up, so this is not a guarantee, but it shows what can happen when the website is built to convert.

Google Business Profile: We can manage and optimize the Google listing so the business looks stronger on Google Maps and local search with better photos, services, updates, descriptions, keywords, review strategy, and accurate information.

SEO: Search Engine Optimization helps the business show up when people search on Google for things like Caribbean food, catering, food truck, local eats, or the business name.

AEO: Answer Engine Optimization helps AI tools, voice search, Google answers, and future search assistants understand what the business does and recommend it clearly.

Modern Discovery: Customers use Google, Maps, Instagram, TikTok, AI search, voice assistants, and reviews. The goal is to make Island Boy easy to find, easy to trust, and easy to contact everywhere customers are looking.

Creative Content Support Included

- Social media post designs
- Logo concepts or logo updates as needed
- Content for the business page and owner's personal/brand page
- Instagram graphics and promotional posts
- Food review content ideas and support
- Creative direction for menu items, catering, events, customer reactions, behind-the-scenes moments, and reviews

Goal: build a professional online presence that makes the brand look legit, helps customers understand the offer, and makes it easy for people to contact, book, or follow.

Project Terms

Start: Website build starts after the \$350 setup payment. Website + personalized app setup is \$500 total.

Monthly: The \$97/month partnership begins when ongoing support starts or the site/app goes live.

Included: Website updates and creative assets while the partnership is active.

Separate if needed: Paid ads, ad spend, domain purchases, professional shoots, and third-party platform fees.

S4 AI Agency · Website + Creative Systems

Recommended next step: start the \$350 website build, or \$500 website + app setup, then continue with the \$97/month partnership.
